- State Management & API Integration: Redux, Context API, RESTful API Integration, API Connection & Consumption, JSON, Async Data Handling
- Backend & Database Exposure: Node.js, PHP, SQL, MySQL, MongoDB, Full-Stack Collaboration & Deployment
- UI/UX & Design Tools: Figma, Adobe XD, Canva, Wireframing & Prototyping, User Flow, Material UI, Typography
- Version Control & Tools: Git, GitHub, Jira, jQuery, ChatGPT, Google Gemini, Claude, Google Antigravity & Generative AI Tools
- Practices & Methodologies: Agile Methodologies, Cross-Functional Collaboration, Quality Assurance & Testing, SEO Best Practices, Performance Optimization
- Leadership: Team Leadership, Project Management, Mentorship & Training, Stakeholder Engagement, Client Relations

PROFESSIONAL EXPERIENCE

Senior Frontend Developer & UI/UX Designer — Mapsystems

2025 – Present

- Led cross-functional teams to deliver high-impact web and design projects on schedule while meeting quality standards.
- Owned end-to-end project execution from UI/UX design through full-stack development and deployment, including RESTful API integration to connect frontend applications with backend services.
- Developed and customized WordPress themes and plugins, including custom post types and taxonomies, to support scalable content-managed websites.
- Partnered directly with clients to gather requirements and translate business goals into scalable digital solutions.
- Built and maintained state management architecture using Redux and Context API to support complex, data-driven interfaces.
- Managed multiple concurrent projects, coordinating workflow across design and development teams.
- Mentored developers and designers to raise productivity, creativity, and technical excellence.
- Maintained high coding standards, optimized application performance, and ensured seamless user experiences.
- Bridged technical teams and clients through clear communication and project transparency.

Junior Frontend Developer — Profenna Technologies, Coimbatore

Jan 2021 – Dec 2022

- Developed and maintained responsive web applications using React.js, JavaScript, HTML5, and CSS3.
- Collaborated with design and backend teams to integrate RESTful APIs and deliver functional, user-focused interfaces.
- Contributed to UI/UX improvements, wireframing, and prototyping within Agile sprint cycles.

Senior Frontend Developer & UI/UX Designer — Blukode Solutions

2023 – 2024

- Led frontend and UI/UX teams to deliver modern, responsive, high-quality web applications within project deadlines.
- Transformed UI/UX concepts into interactive frontend experiences using React.js, JavaScript, and Bootstrap.
- Integrated RESTful APIs to connect frontend components with backend data sources, improving application responsiveness.
- Delivered responsive web design and interface development for visually engaging digital products.
- Managed multiple frontend projects while ensuring smooth collaboration between design and development teams.
- Built user-centric interfaces that enhanced usability, accessibility, and customer engagement.
- Mentored frontend developers and designers to improve creativity, productivity, and technical skills.
